THE CROWN CHRONICLE

Winter 2026

A Message from Jesse:

Hi Everyone, Happy New Year!

As we welcome a new year, all of us at Crown Chimney want to thank you for trusting us with your homes and your chimney needs. We're truly looking forward to another year of working with you and helping keep your homes safe, warm, and comfortable.

January is often when we hear homeowners say, "Something just doesn't seem right with our fireplace." Cold winter weather has a way of exposing chimney issues that might not show up any other time of year. Draft problems, smoke entering the home, or fireplaces that don't perform the way they used to can all be signs that something needs attention.

Enjoy the Moments ...
NOT the Maintenance!

Call us today to
schedule 2026 annual
chimney services!

The start of a new year is a great time to ensure your chimney operates safely and efficiently for the rest of the winter. Addressing small issues now will keep your fireplace running the way it should and can help prevent bigger problems later in the season.

From all of us at Crown Chimney, thank you for being part of our community. We look forward to serving you throughout the year ahead.

Stay warm,
Jesse

LIBRARY

The "Get-To-Know-You Period" can take time. While our technicians do a great job sharing tips and tricks for using your new appliance, we understand there may be instances when a little extra help is needed.

That's why our website now offers a "[Library](#)" section to answer questions and offer assistance (look for the "About Us" tab)!

Need to reference a manual? Watch a YouTube video?

Learn about your wood stove/pellet stove/gas fireplace on your time!

We'll be adding to this section so continue to check in.

Of course, our team is always available to troubleshoot so feel free to give us a call during normal business hours and we will be happy to help!
